Professional Summary

Full Stack Developer skilled in **MERN stack, PHP, REST APIs, CRUD operations, JWT Authentication, and database-driven applications**. Experienced in developing scalable and responsive web applications with strong understanding of **DSA, SDLC, Agile workflow, and API integration**. Solved 250+ LeetCode problems and passionate about backend systems, UI/UX, and real-world software development.

Technical Skills

Languages: Java, Python, JavaScript

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, PHP

Database: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman

Concepts: REST API, MVC, OOP, Authentication, Responsive Design

Projects

Digital Restaurant Management System — *HTML, CSS, JavaScript, PHP, MySQL* Oct 2025

- Built QR-based food ordering system with digital menu and real-time order tracking, improving order efficiency by 40%.
- Developed a secure RESTful backend using PHP and MySQL for reliable transaction processing and database management.
- Automated restaurant workflow operations, reducing manual processing and improving system efficiency.

Personal Knowledge Graph Linker — *Node.js, Express.js, MongoDB* Mar 2026

- Developed an AI-based system to convert PDF documents into structured knowledge graphs for intelligent learning.
- Built RESTful APIs for document processing, user management, and data retrieval operations.
- Processed 50+ documents and generated intelligent learning paths for structured understanding.

Weather Forecast Application — *HTML, CSS, JavaScript, REST API* Jan 2026

- Integrated OpenWeather API to fetch real-time weather data with 1–2 second response time.
- Built a responsive web application supporting mobile, tablet, and desktop devices using modern frontend technologies.
- Integrated OpenWeather API to display real-time weather data including temperature, humidity, and forecast conditions with dynamic updates.

Education

Sathyabama Institute of Science and Technology 2023 – 2027

Bachelor of Engineering in Computer Science and Engineering — CGPA: 9.0

Relevant Coursework: DBMS, Operating Systems, Software Engineering, Data Structures and Algorithms

Certifications

- NPTEL – Python for Data Science (2025)
- NPTEL – Large Language Models (2026)
- Scaler – MySQL
- Udemy – React.js

Achievements

- Solved 250+ LeetCode problems in Data Structures and Algorithms LeetCode
- Developed a Women Handicraft E-Commerce website with secure payment gateway integration and product management features.
- Currently developing an AI-powered accessibility web platform aimed at assisting differently-abled users with innovative digital solutions
